CDC FIRE MOBILIZATION GUIDE

IDAHO PANHANDLE NATIONAL FORESTS, USFS**IDAHO DEPARTMENT OF LANDS, STATE****COEUR D'ALENE TRIBE, BIA****COEUR D'ALENE FIELD OFFICE, BLM**

This guide is intended to supplement the Northern Rockies Mobilization Guide.

Subjects in the National Northern Rockies Guide have not been duplicated here except when needed to emphasize items.

Users of this guide should become familiar with the National, Northern Rockies, and this mobilization guide.

CHAPTER 10 - OBJECTIVES, POLICY AND SCOPE OF OPERATION

MISSION STATEMENT

The mission of the Coeur d'Alene Interagency Dispatch Center (CDC) is to be a service organization providing support first to the firefighter on the ground and on up through the fire management organization for each participating member agency, while also providing a service to the public and keeping firefighter and public safety as the highest priority. In doing so, CDC will strive to provide safe, cost effective mobilization of emergency incident resources and to promote efficient operations through interagency cooperation and standardized procedures.

The CDC Interagency Mobilization Guide (Guide) identifies standard procedures which guide the operations of multi-agency logistical support activity throughout the coordination system. This Guide is intended to facilitate interagency dispatch coordination; timely and cost effective emergency response providing incident support services. It is designed to accommodate amendments as needed and will be retained as current until amended. This Guide is to be used in conjunction with the National and Northern Rockies Mobilization Guides.

TOTAL MOBILITY

The Coeur d'Alene Interagency Dispatch Center Manager, Assistants and dispatchers have been delegated authority from the line officers and cooperating agency administrators to move personnel and equipment throughout the CDC Dispatch Zone, geographically and nationally to meet fire preparedness, fire suppression needs and all risk incidents.

The Coeur d'Alene Interagency Dispatch Center Manager will:

- Dispatch personnel, crews, equipment, aircraft, and supplies.
- Maintain status of personnel, crews, equipment, aircraft, transportation, and supplies.
- Determine priorities for personnel, crews, equipment, aircraft, and supplies in multiple fire situations and all risk incidents. The CDC dispatchers will fill requests according to priorities.
- Keep agency administrators and the Northern Rockies Coordination Center (NRCC) informed of potential, current and critical fire situation.
- Provide situation and resource status information for the CDC Dispatch Area by collecting and distributing information concerning the national/regional fire situation including: fire danger, number of fires, location, area burned, resources committed, resources available, and special conditions, including all risk incidents.
- Encourage and practice close cooperation in the sharing of resources with other areas and protection agencies for mutual benefits.
- Give all agencies equal consideration when filling resource requests.

PRIORITIES

Priority setting is delegated to the CDC Center Manager (in coordination with the Federal Fire Duty Officer and the IDL Fire Bureau Duty Officer) until a North Idaho Multi-Agency Coordinating (MAC) Group is activated. In the event of shortages of personnel, crews, equipment, or supplies the following priorities will be considered:

- The single overriding suppression priority is the protection of human life – both of our firefighters and of the public.
- When multiple IA and large fires are occurring and resources become scarce, prioritization becomes critical. Consider using the following priorities when allocating scarce equipment and personnel:
 1. Firefighter and Public Safety
 2. Initial Attack
 3. Communities and Community Infrastructure, other Property Improvements and Natural and Cultural Resources
 4. Emerging Incidents (Type 3)
 5. BAER Project Support

CDC Standard Operating Procedures (CDC SOP)
Interagency Standards for Fire and Fire Aviation Operations

SCOPE OF OPERATION

GENERAL

This Guide contains dispatch procedures. Included in this guide is a catalog of personnel, crews, equipment, aircraft, and supplies to assist in obtaining prompt and adequate dispatching of resources to insure management of all wildland and prescribed fires, within agency standards. This Guide is used in conjunction with the National and Geographic Area Mobilization Guides and CDC's SOP.

The Coeur d'Alene Interagency Dispatch Center has initial attack dispatching responsibilities for the following districts/areas:

South Zone:

Forest Service: St. Joe Ranger District

IDL: West St. Joe and Ponderosa Area Fire Protective Districts

CDT: Coeur d'Alene Tribe

Central Zone:

Forest Service: Coeur d'Alene River Ranger District

IDL: Mica and Cataldo Fire Protective Districts

North Zone:

Forest Service: Priest Lake, Sandpoint, and Bonners Ferry Ranger Districts

IDL: Pend Oreille, Priest Lake, and Kootenai Valley Fire Protective Districts

The Coeur d'Alene Interagency Dispatch Center also has coordination and support responsibilities for the following:

Idaho Panhandle National Forests, Supervisor's Office and Nursery

Idaho Department of Lands, Staff Office

Bureau of Land Management, Coeur d'Alene Field and District Office

Coeur d'Alene Interagency Fire Cache

U.S. Fish & Wildlife Service, Kootenai National Wildlife Refuge

Coeur d'Alene interagency dispatcher and the incident duty officer will order and adjust the initial attack resources based on incident potential and agency suppression objectives. Upon arrival of the Incident Commander on scene, the CDC dispatcher will then provide support to the Incident Commander.

Reference: **CDC SOP**

DISASTER AND EMERGENCY PLANS

Coeur d'Alene Interagency Dispatch Center Occupant Emergency Plan

Appendix C of CDC Office Procedures Guide

BUREAU OF LAND MANAGEMENT – Policy and Direction for disasters and emergency situations can be found in the Coeur d'Alene District Incident Procedures Plan.

COEUR D'ALENE TRIBE – Reserved.

FOREST SERVICE – Policy and direction for disasters and emergency situations can be found in National Response Plan, FSM 1590, the Northern Region Emergency and Disaster Plan, Incident Procedures on the IPNF and Emergency Plan, and Forest Service Supplements to each.

IDAHO DEPARTMENT OF LANDS – Direction may be found in the IDL Emergency Response and Safety Plan.

ALL RISK RESPONSE

FS: A Presidential Disaster Declaration must be in place before the **Forest Service** is authorized to respond to an all risk incident, i.e. prepare for, respond to and recover from terrorist attacks, major disasters and other emergencies.

If life and property are threatened and there is no Presidential Declaration, the Forest Supervisor has the authority to authorize FS employees to respond to the incident. The FS employee will charge their time to their normal project work code. FS employees will be released as soon as the agencies with jurisdictional responsibility can fully assume those responsibilities.

Expenditure of Funds: Obligations incurred are considered payable out of currently available funds only, without expectation of replenishment. In the event the Parties agree to reimbursement, an appropriate Agreement Instrument will need to be developed and processed through the Grants & Agreements Specialist. A reimbursable management code will be established prior to any charges being incurred. It is not appropriate to charge to a P- or F-job code. The authorizing legislation for federal employees to support all risk incidents is the Stafford Act.

IDL: A Governors' Disaster Declaration must be in place for the **Idaho Department of Lands** to respond to an all risk incident, i.e. prepare for, respond to and recover from terrorist attacks, major disasters and other emergencies such as local county flooding, train derailment.

FIRE MANAGEMENT PLAN

The **Idaho Panhandle National Forest** Fire Management organization will ensure that all responses to unplanned fire ignitions are consistent with the 1987 Land Management Plan, adhere to direction contained in the 2009 Interagency Guidance for Implementation of Federal Wildland Fire Management Policy' and utilize WFDSS to document responses to all unplanned ignitions on National Forest lands and protection area.

The **Idaho Department of Lands Fire Mobilization Guide** and the **Idaho Department of Lands Fire Management Handbook** have been developed to assist the IDL Fire Management organization.

The **Bureau of Land Management Coeur d'Alene Field Office Fire Management Plan** has been developed to assist the BLM fire management organization.

MOBILIZATION / DEMOBILIZATION

CDC will coordinate movement of all national shared resources through NRCC. CDC will coordinate the movement of all resources within the CDC dispatch area across unit and agency boundaries. All initial attack aircraft resources will be coordinated through CDC.

Reference the **Northern Rockies Mobilization Guide**

INITIAL ATTACK PROCEDURES

CDC may order initial attack resources directly from cooperating agencies within the CDC dispatch area, from neighboring units (MT-KDC, MT-MDC and ID-GVC) and from NRCC. Where local agreements are in place, CDC has the authority to utilize resources of adjoining units and centers across adjacent Geographic Area boundaries.

The Idaho Panhandle and Kootenai National Forests have established Boundary Fire Protocols, dated Aug 16, 2010.

References: **Chapter 20 and Chapter 40**
Northern Rockies Mobilization Guide, Chapter 20
CDC SOP, Chapter 20

Fires will be reported directly to CDC. Reports should be as complete as possible and include enough information to allow for appropriate response. Fires outside the CDC dispatch zone will be reported to the responsible protection agency.

Reference: **CDC SOP**

Districts/Areas are responsible for having adequate initial attack resources available to handle the expected fire load considering fire danger, time of year, and available funds.

NATIONAL RESOURCES

The Idaho Panhandle Interagency Hotshot Crew (IHC) is assigned to the IPF and dispatched by CDC.

NOTIFICATION OF COMMITMENT OF NATIONAL RESOURCES

When dispatching national resources, CDC will notify NRCC with a 'COMMIT' message as soon as the order is filled in ROSS. The message will be sent to CDC's "Commit National" mailing list in MS Outlook (fs-pdl_r1_ipnf_commit_national@ms.fs.fed.us).

Reference: **National** and **Northern Rockies Mobilization Guide(s)**

CDC's "Commit" mailing list (fs-pdl_r1_ipnf_commit@ms.fs.fed.us) will contain NRCC, neighboring dispatch centers and local fire managers and may be used when local SEATs, AWS, or exclusive use helicopters are committed.

STATE NOTIFICATION/AUTHORIZATION

The IDL Statewide Duty Officer will be notified of any out-of-area dispatches of the IDL Single Engine Air Tankers (SEAT), Amphibious Water Scooping (AWS) 'Fire Boss' and Type 2 helicopter during periods of low or moderate fire danger. The IDL Statewide Duty Officer will authorize out-of-area dispatches during periods of high or above fire danger.

WILDLAND FIRE WEATHER FORECASTS

CDC will distribute fire weather information received from the National Weather Service. CDC is responsible for communicating wildland fire information in a timely manner to firefighters and incident management personnel. All weather watches or warnings will be broadcast over the radio and positive confirmation from the IC that the weather information was received, understood, and passed on to key individuals assigned to the incident.

FIRE BEHAVIOR

During periods of high fire activity, available fire behavior information will be transmitted to individuals assigned to fire duties within CDC's dispatch area. Each dispatch zone will report any fire behavior information gained from field reports that may be of interest to the rest of the area.

Safety comes first on every fire, every time.

CHAPTER 20 – ADMINISTRATION PROCEDURES

ORDERING CHANNELS/COST CODING**COEUR D'ALENE INTERAGENCY DISPATCH CENTER (CDC)**

Under one cooperating unit, CDC is an interagency dispatch facility that serves:

- Forest Service, Idaho Panhandle National Forests (IPF)
- Coeur d'Alene Tribe (CDT)
- Idaho Department of Lands (IDS, North Operations)

CDC provides coordination support to:

- Bureau of Land Management Coeur d'Alene District and Field Office (COD)
- Kootenai National Wildlife Reserve (KOR)

Specific information on CDC office operations is contained in the **CDC Standard Operating Procedures (CDC SOP)** and/or the **CDC Office Procedures Guide (CDC OPG)**.

ORDERING PROCEDURES

CDC may order resources from neighboring units for initial attack, extended attack, large fire support, and non-fire incidents. CDC can go direct to the following units, as long as the requirements of the geographic area mobilization guide are met:

- Idaho Panhandle National Forest Districts (ID-IPF)**
- Idaho Department of Lands Bureau and Area Offices (ID-IDS)**
- Coeur d'Alene Tribe (ID-CDT)**
- Bureau of Land Management, Coeur d'Alene District and Field Office (ID-COD)**
- Kootenai National Wildlife Reserve (ID-KOR)**
- Kootenai Interagency Dispatch Center (MT-KDC)**
- Grangeville Interagency Dispatch Center (ID-GVC)**
- Missoula Interagency Dispatch Center (MT-MDC)**
- Plains Dispatch Center (MT-PDC) (through MDC)**

Where local agreements are in place, CDC has the authority to utilize resources across Geographic Area boundaries:

- Northeast Washington Interagency Coordination Center (WA-NEC)**
 - Colville National Forest (WA-COF)**
 - BI-Regional Air Resources (WA-COF, WA-SPD)**
 - Washington Dept. of Natural Resources, NE Region (WA-NES)**
 - Spokane District BLM (WA-SPD)**
- Central Washington Interagency Coordination Center (WA-NWC)**
 - BI-Regional Air Resources (WA-OWC)**
- IDL Statewide Resources (ID-BDC, ID-CIC, ID-EIC, ID-PAC, ID-SCC), reference below**

The State of Idaho is located in two Geographic Areas (Northern Rockies and Eastern Great Basin). Dispatch centers may order Idaho Department of Lands (IDL) resources directly from any other dispatch center in the state, regardless of Geographic Area, for incidents within IDL protection or IDL jurisdiction. These orders are processed directly between dispatch centers as established by ROSS "Direct Order Affiliations". Only IDL resources may be dispatched through this direct ordering process. Resources requests for non-IDL resources must follow conventional GACC ordering procedures.

Movement of resources between units and requests for shared or off-unit resources will be coordinated through CDC. The Fire Warden/District FMO, in coordination with CDC, will initiate actions to fill in behind committed resources considering total area/forest capabilities.

CDC will consider all available individuals for Off-Forest/Area incident assignments that have a current Incident Qualification Card (Red Card). Requests will be processed by CDC.

IDL employees who are members of an incident management team assigned to a non-fire incident are required to obtain authorization from their immediate supervisor, or if the supervisor is unavailable, the IDL Fire Bureau Duty Officer, prior to accepting the assignment. Unless otherwise authorized by the IDL, all incident assignments will be for a 14-day period. If the incident team plans is requested to stay longer than 14 days, consideration will be given to a rotation.

COST CODING

All statistical fires, regardless of jurisdiction will be assigned a fire number.

A FireCode will be assigned to all Forest Service and Coeur d'Alene Tribe fires, all fires on BLM ownership, and any IDL fires that incur Federal or Tribal charges.

Reference: **Northern Rockies Mobilization Guide, Chapter 20**

The numbering system for non-suppression orders (pre-suppression, training, details, project, etc. will consist of the State, unit identifier, and a sequential number. A single incident number will be assigned for all prescribed fire orders on each ranger district or forest protective district with charge codes specified for each project.

Always confirm the charge code associated with out-of-area requests. If the charge code is a project code, other than a P, S, G or F code, confirm with NRCC if a reimbursable code has been established and/or if the request is agency specific.

For all IPF severity requests, the resource order must contain the word "severity" in the Incident/Project Name (block 2) of the resource order.

STATE REPORTING PROCEDURES

Upon dispatch of any IDL resource for out-of-area assignment, a copy of the completed resource order will be emailed to the respective duty officer. Orders for all Coeur d'Alene Staff Office, Dispatch, or Fire Cache resources will be emailed to the IDL Fire Bureau Duty Officer (idldutyofficer@idl.idaho.gov). Specific procedures are addressed in the **CDC OPG**.

NORTHWEST WILDLAND FIRE PROTECTION AGREEMENTS (NORTHWEST COMPACT)

The Northwest (NW) Compact was created by Congress to facilitate assistance in wildland fire pre-suppression and suppression between the member agencies. Member agencies include the States of Alaska, Washington, Oregon, Idaho and Montana, as well as the Canadian Provinces of Alberta, British Columbia, Saskatchewan, Northwest Territories and the Yukon Territory. The federal wildland fire agencies in the Northern Rockies are not signatory agencies of the NW Compact, but are committed to assisting the NW Compact in accomplishing its goals.

The NW Compact and its operating plan do not override or supersede any existing cooperative wildland firefighting arrangements such as federal/state agreements or the Canada/US Reciprocal Forest Fire Fighting Agreement. NW Compact resource exchanges are not part of the national mobilization process, but need to be coordinated as soon as practical for strategic planning purposes. All NW Compact resources used on joint US Federal/State fires will be considered agents of the state that originally ordered them.

The IDL Fire Bureau Duty Officer is the point of contact for the State of Idaho for all NW Compact orders. All orders for NW Compact resources to be deployed in Idaho will be placed through CDC as well as all orders from NW Compact agencies for State of Idaho resources.

Only State resources may be mobilized through the NW Compact.

Reference: **Northwest Compact Cooperative Operating Plan**

NW Compact orders from Canadian agencies requesting resources with a federal component must be placed through normal dispatch channels. The following illustrates the ordering channel in this instance.

Province □ CIFFC □ NICC □ NRCC □ Dispatch Center □ NRCC □ NICC □ CIFFC □ Province
Dispatch of critical resources should not be unnecessarily delayed while orders are being processed through the national mobilization system.

A courtesy notification to NRCC should be made any time compact resources are mobilized. NW Compact order and manifest forms will be filled out. Currently, NW Compact orders are encouraged, but not required, to be placed through ROSS. Canadian NW Compact resources brought into Idaho will be entered into ROSS following a pre-designated naming convention to readily identify them as such.

Reference: **Chapter 40**

OVERHEAD/CREWS

Reference: **Northern Rockies Mobilization Guide, Chapter 20**

OVERHEAD MOBILIZATION AND DEMOBILIZATION

Out of area resource mobilization will be coordinated by CDC.

A communication plan will be established for ground travel that requires an overnight stay prior to arrival at the incident. A Chief of Party may be identified for multiple resources travelling together.

CDC will arrange commercial air travel for emergency incidents only.

Non-emergency travel, administrative, detail, etc., will be coordinated by the employee at their local unit and travel itinerary provided to CDC if the employee was requested through ROSS.

FS Details: Reference **R1 Guide to Detail Assignments for FS Employees**

(http://fsweb.r1.fs.fed.us/fire/new_site/2013/DetailAssignmentGuideforEmployees.pdf)

Upon receipt of a **severity** request, confirm the details and specifics.

- IDL employees do NOT need special approval to accept severity assignments.

Confirm the charge code associated to **All-Risk** requests.

- IDL employees may accept All-Risk assignments **with prior approval** from their supervisor and/or the IDL Fire Bureau Duty Officer.

A passport is required for mobilization requiring crossing an international boundary. Government-issued photo identification is required for commercial air travel.

CREWS

TYPE 2 / TYPE 2 IA AGENCY CREW MOBILIZATIONS

The CDC Dispatch Zone Type 2 and Type 2 IA crew identification is based on the CRWB; if the CRWB is FS the crew identification is ID-IPF, if the CRWB is State the crew identification is ID-IDS. The intent is to mobilize interagency crews, providing positions on the crew for each fire management agency represented on the zone.

- The Up-Zone is the zone that is next in the rotation to provide the CRWB and crew members. Fire managers within the zone shall coordinate on designating CRWB and determining numbers of crewmembers from each agency.
- In the event that an "agency specific" crew is mobilized the zone rotation will remain as is for the next interagency crew order.

Upon discussion between the fire managers and the CDC Center Manager, the above statements may be adjusted to address individual situations.

Upon receipt of a crew request, CDC will contact the duty officer of the identified CRWB in the Up-Zone and relay all of the pertinent information. CDC will then contact the other duty officers to fill out the crew members, unless already identified, in which case CDC will advise the other duty officers of the crew request. If the numbers of crew member positions were not pre-identified, CDC will allocate the slots giving each agency consideration. The CRWB will facilitate populating the manifest; CDC may assist, if necessary.

The following procedures will be adhered to:

- Trainees stay with their trainer/evaluator.
- CRWB will determine time and location for crew to convene prior to mobilization, the route of travel and provide itinerary to CDC.
- CRWB will determine crew configuration from the manifest.
- Limit the number of trainees on a crew;
 - One CRWB trainee and one FFT1 trainee or two FFT1 trainees.
- Some situations may allow additional training opportunities.
- Encourage CRWB trainees to take assignments with IHC.
- On interagency crews, agencies represented on the crew will identify a chief-of-party to facilitate medical procedures.
- CRWB's home unit is responsible for ordering sack lunches for the entire crew; CDC will provide an S#.
- CRWB will ensure appropriate mix and number of hand tools, chainsaws, radios, and number of vehicles.
- Offices providing crewmembers need to provide vehicles or coordinate vehicle space; vehicles shall be appropriate for crew fire assignment with dry, clean, secure gear storage area.
- If flying, the driver(s) will remain with the crew until the aircraft has lifted off.
- Crew will convene as a group prior to departing the CDC Dispatch Zone and remain as such until disbanding upon return.

Requests for Self Sufficient

Every effort will be made to accommodate requests for self-sufficient crews.

- IDL purchase cards:
 - May not be used to purchase meals for IDL or other personnel.
 - May be used to purchase motel rooms for IDL and other agency personnel if necessary, but full documentation must be kept.
- FS micro-purchase cards:
 - May be used for motel rooms and meals for FS and other agency personnel ONLY in cases of emergency response (including severity orders).
 - **May not** be used to provided meals and lodging on detail assignments or in the performance of project work.

Card holder should include the resource order and manifest as documentation for reconciliation.

All offices will ensure that crews dispatched:

- Are weighed and a manifest forwarded to CDC.
- Have a lunch with them, unless otherwise instructed.
- Have government issued photo ID.
- Are briefed and checked for hazardous materials compliance, if traveling commercially.
- Are provided any available fire behavior information.
- Check in daily with CDC while in travel status, if traveling by ground.

INTER-REGIONAL COOPERATION

The Newport and Sullivan Lake Ranger Districts (Kaniksu Fire Zone), Colville National Forest in Region 6 and the Priest Lake Ranger District, Idaho Panhandle National Forests in Region 1 have a working relationship that has fostered crew cohesion and an opportunity for an inter-regional 20-person agency type 2 crew, as well as an opportunity for assistance with local project work. The dispatch center filling the crew request will notify the supporting dispatch center and supply a copy of the resource order. The Fire Management Officer supplying the personnel will notify their dispatch center with names of the supporting personnel.

INMATE CREWS

Order ICIO correctional crews through ID-GVC for suppression or project work.

Reference: **Chapter 60 Idaho Correctional Institute – Orofino (ICIO) and Southern Idaho Correctional Institute (SICI).**

CONTRACT CREWS

CDC currently hosts two National Type 2 IA Crews. CDC will utilize agency and cooperator crews prior to use of any contract resource.

INCOMING CREWS

- Order a CREP specific to the crew's agency, as needed.

SMOKEJUMPERS

Reference: **Northern Rockies Mobilization Guide, Chapter 20**

All smokejumper requests will be coordinated through CDC. CDC can place smokejumper requests directly to the dispatch center of the closest smokejumper base to the fire (ID-GVC, MT-MDC, MT-BZC). For IA only, CDC can go directly to North Cascades Smokejumper Base (NCSB) (WA-CWC), under the Bi-Regional Air Resources Operations Plan. If the closest smokejumper base (including NCSB) cannot fill the request, then the request must be placed with NRCC. Ensure a check-in schedule is provided on the request form and that the jump ship will make initial radio contact with CDC and that communications have been established with the IC before the jump ship leaves the area.

HELICOPTER MODULE

Reference: **Northern Rockies Mobilization Guide, Chapter 20**

Reference: **IHOG** for FS fire staffing

INCIDENT MANAGEMENT TEAMS

Reference: **Northern Rockies Mobilization Guide, Chapter 20**

The North Idaho Zone has two Type 2 Incident Management Teams (IMT). Call-out procedures are contained in the **Northern Rockies Geographic Area Type 1, Type 2 and Wildland Fire Management Team Incident Management Team Plan**.

<http://gacc.nifc.gov/nrcc/dispatch/overhead/IMTplan.pdf>

The CDC Dispatch Area hosts two Type 3 Incident Management Teams.

Reference: **North Idaho Type 3 IMT Operations Plan**

The Finance Section Chief should have all known financial issues and concerns resolved and have contacted and coordinated with local budget and financial personnel regarding financial packages. The financial package needs to be ready for submittal prior to the release of the IMT Finance Section.

FS BURNED AREA EMERGENCY RESPONSE (BAER) TEAMS

Reference: **Chapter 60**

BAER Survey

Forest Supervisors are responsible for evaluating wildfires greater than 500 acres or smaller fires where potential threats exist to determine if emergency treatments are needed.

CRITICAL INCIDENT STRESS DEBRIEFING (CISD) TEAMS

When requested, CDC will utilize the process identified in the Northern Rockies Mobilization Guide Chapter 60 to obtain a Critical Incident Stress Debriefing (CISD) Team for fire related incidents (an incident with a suppression code assigned).

Reference: **Chapter 60**

For non-fire related incidents, the agency involved will utilize their agency procedures to obtain a CISD Team. CDC is not to be involved in non-fire related requests.

EQUIPMENT / SUPPLIES

Reference: **Northern Rockies Mobilization Guide, Chapter 20**

All equipment and supply orders will follow established ordering procedures. The Coeur d'Alene Interagency Fire Cache (CDK) is located at 3328 W. Industrial Loop, Coeur d'Alene, Idaho 83815. CDK is a Type 2 National support cache supporting the IPF, CDT, BLM and the IDL. CDK stocks sufficient firefighting supplies and equipment for a force of 1250-1500 firefighters at one time without restocking from outside resources with the National Cache System. Normal complement includes four (4) each 250-person Mobile Support Cache Vans, NFES 82069, ready for shipment.

Submit all non-incident related ordering directly to CDK.

References: **Coeur d'Alene Interagency Fire Cache User's Guide**
NIZ Incident Business Plan (USFS)
IDL Business Operating Guide

EQUIPMENT / SUPPLIES MOBILIZATION

IMT's may place supply "S" orders for project fires directly to CDK, provided the direct ordering criteria has been met as identified in the Incident Business Plan.

Equipment "E" orders will go through CDC. All requests for equipment which cannot be filled locally or through the dispatch neighborhood will be placed via ROSS to the equipment desk at NRCC. Dispatchers will use the following references when filling orders for non-agency equipment:

References: **NIZ Incident Business Plan (USFS)**
IDL Business Operating Guide
Local Agreement books

For Competed Resources, the point of hire and travel route will determine the inspection site, if needed CDC can assist with the coordination of a pre-use inspection.

Equipment mobilization priorities:

1. Agency and cooperator resources
2. Competed Resources (Dispatch Priority Lists or Resource Lists)
3. IDL EERAs (IDL only unless co-signed by federal contracting officer)
4. FS Incident Only agreements (resource list resources)

Private vendors with a signed agency agreement for competitive contracted resources (dispatch priority lists and/or resource lists) CDC will status as available national in ROSS unless notified otherwise.; engines, clerical support units, hand wash stations, potable water trucks, skidgines, soft tracks, tents/canopies/yurts, toilets, water tenders, and weed wash units.

References: **Northern Rockies Mobilization Guide, Chapter 20**
NIZ Incident Business Plan (USFS)
IDL Business Operating Guide

MOBILIZING of WATER HANDLING EQUIPMENT

All non-agency/cooperators out-of-area requests for water handling equipment will be distributed based on the out-of-area Dispatch Priority List (DPL) by NRCC after agency and cooperator resources have been depleted.

Reference: **Northern Rockies Mobilization Guide, Chapter 20**

NATIONAL INTERAGENCY SUPPORT CACHE ORDERING PROCEDURES

INCIDENT REPLACEMENT OF NFES ITEMS

All "S" numbers will be acquired through CDC for local incidents. Incident replacement orders must be submitted and received no later than 45 days after close of the incident. For incident replacement of NFES items that were either consumed or left on the incident by the responding units, the host incident agency will provide a completed Incident Replacement Requisition to the CDC Center Manager for review. Upon approval, CDC will assign "S" numbers and process through ROSS to CDK.

National procedures will be followed for the replacement of non-expendable or non-standard cache government property items that have been destroyed or rendered otherwise unserviceable while being used on an incident(s).

References: **IIBMHB Northern Rockies Supplement, Chapter 30**
Coeur d'Alene Interagency Fire Cache User's Guide

INCIDENT REMOTE AUTOMATIC WEATHER STATIONS (IRAWS) NFES #5869

For IRAWS ordered within the CDC Dispatch area, all necessary technicians, vehicles and transportation will be ordered to facilitate installation and maintenance of the IRAWS unit.

PROJECT REMOTE AUTOMATIC WEATHER STATIONS (PRAWS) NFES #5870

For PRAWS ordered within the CDC Dispatch area, all necessary technicians, vehicles and transportation will be ordered to facilitate installation and maintenance of the PRAWS unit.

NATIONAL CONTRACT MOBILE FOOD SERVICES AND NATIONAL CONTRACT MOBILE SHOWER FACILITIES

Mobile Food Service Unit requests require a completed Food Service Request form at the time of request. To expedite the request an incomplete request may be submitted with as much pertinent information as possible, location, with the understanding a complete request will be submitted as soon as possible.

LOCAL GOVERNMENT

As a cooperator, local government resources will be mobilized prior to contract resources. Local Government miscellaneous overhead and equipment will be ordered directly from the FD with a notification to the local Supervisory Area Office (i.e. Northern Lakes Fire Dept will be ordered by CDC with a notification to MIS).

References: **Idaho Fire Service Organization Rate Book**
NIZ Incident Business Plan (USFS)
IDL Business Operating Guidelines
CDC SOP

AIRCRAFT

All requests for IA aircraft services will be directed through the CDC IA Supervisor, identified Aircraft Dispatcher or Unit Aviation Officer. Reference the **Northern Rockies Mobilization Guide** for a complete list of contracted and call-when-needed aircraft available and further definition of aircraft policies.

All requests for project aircraft services for IDL projects will be directed to the IDL Aviation Officer and IPF requests will go to the IA Supervisor or the identified Aircraft Dispatcher, with aircraft recommendation and Project Aviation Safety Plan from by the IPF Unit Aviation Officer.

AUTOMATED FLIGHT FOLLOWING (AFF) PROCEDURES

References: **Northern Rockies Mobilization Guide, Chapter 20**
CDC SOP, Chapter 80

PREDICTIVE SERVICES

References: **CDC Intelligence SOP**
CDC Operating Procedures
Northern Rockies Mobilization Guide, Chapter 20

INCIDENT STATUS SUMMARY (ICS-209)

The Incident Status Summary (ICS-209) will be submitted electronically to CDC from the IMT by 1800 hours Pacific Time daily from all incidents burning within the CDC dispatch area that require an ICS-209.

REPORTING WILDLAND FIRES

References: **Northern Rockies Mobilization Guide, Chapter 20**
National Mobilization Guide, Chapter 20
Interagency Standards for Fire and Fire Aviation Operations, Ch. 1-5

INTERAGENCY SITUATION REPORT

Information for the interagency situation report will be collected from the Initial Attack Zone Dispatchers, Assistants and Center Manager by 1500 hours daily and transmitted to NRCC, no later than close of business or 1800 Pacific Time.

WILDLAND FIRE DECISION SUPPORT SYSTEM (WFDSS) / WILDLAND FIRE SITUATION ANALYSIS (WFSA) AGENCY POLICY AND PROCEDURES

The Wildland Fire Decision Support System, used locally for all federal and tribal fires, provides decision support analysis tools, documents fire management decisions and provides a long term operational plan as needed for unplanned wildland fires. With the advent of IRWIN, initial WFDSS data will eventually be populated from other data source programs (FireCode, or WildCAD). In the interim, some incidents may need to be manually entered by CDC.

Forest Service

District personnel will complete and close the WFDSS documentation for all FS incidents, including wildland fires on FS lands, FS lands under IDL protection, state and private lands under FS protection.

References: **Local Annual Operating Plan**
WFDSS / WFSA Policy and Procedures

Coeur d'Alene Tribe

CDT officials will complete and close the WFDSS documentation for all fires on lands under CDT protection.

Bureau of Land Management

CDC will complete and close the WFDSS documentation for any fires on BLM ownership not under other federal protection and not requiring analysis..

Idaho Department of Lands

The WFSA will be used, as needed, for wildland fires under IDL ownership and Federal, and Private Lands under IDL protections. Supervisory Area Offices will facilitate the WFSA process.

References: **Local Annual Operating Plan**
WFDSS / WFSA Policy and Procedures

NRCC DISPATCH CENTER CALL-AROUND

The CDC Center Manager or Assistants will facilitate and provide NRCC's afternoon intelligence updates (approximately between 1400 and 1500 hours Pacific Time) as requested.

Reference: **Northern Rockies Mobilization Guide, Chapter 20**

NATIONAL FIRE PREPAREDNESS PLAN

Preparedness Levels (PL) are established by the Center Manager in consultation with the IDL Fire Bureau Chief and Federal Fire Program Manager (or local MAC when activated).

PREPAREDNESS LEVEL DESCRIPTIONS

PL 1

No Large Fires In Progress – Most Zones with NFDRS Staffing Class 3 or lower. Potential for escaped fires is low.

PL 2

No Large Fires In Progress – Two of the Zones with NFDRS Staffing Class 3+. Actionable fires susceptible to initial attack control although a few fires are escaping to B or C. Potential for escaped, fires moderate.

Large Fires In Progress – One Zone requiring assistance including overhead, crews, and equipment.

PL 3

No Large Fires In Progress – Two Zones NFDRS Staffing Class 4. Actionable fires moderately susceptible to initial attack as indicated by higher number of B and C class fires. No break in weather predicted within 48 hours.

Large Fires In Progress – Two Zones requiring assistance. No more than two class D+ suppression fires in progress requiring assistance. One or more incident management teams committed within the Area.

PL 4

No Large Fires In Progress – All three Zones with a NFDRS Staffing Class of 4 or higher. Actionable fires not susceptible to initial attack as evidenced by the high number of class C and D fires each day. Multiple ignitions causing a large number of fires to escape initial attack.

Large Fires In Progress – All three Zones requiring assistance. More than three class D or two class E or larger suppression fires requiring assistance. More than two incident teams committed in the Area.

PL 5

Large Fires In Progress – Multiple fires are requiring incident management teams. Significant competition for resources is occurring.

IDL PREPAREDNESS LEVEL ACTIONS**Lower Preparedness Level actions remain in effect at all levels.**

ACTION	ASSIGNED TO
Preparedness Level 1	
Keep informed on current and anticipated statewide fire situation.	State Fire Coordinator
Keep State Forester informed as situation warrants.	State Fire Coordinator
Alert State Fire Coordination Office (SFCO) personnel if conditions warrant change in preparedness level.	State Fire Coordinator
Preparedness Level 2	
Declare preparedness level and advise State Forester. Activate “on-call” schedule.	State Fire Coordinator
Activate Daily Fire Report, including informing geographic areas of situation.	State Fire Coordinator
Keep informed of movement between units of resources and prepare for dispatch of equipment.	Cache Manager
Preparedness Level 3	
Activate SFCO positions 24-hour duty or “on-call” schedule.	State Fire Coordinator
Staff District offices seven days a week, and activate additional persons in “standby” status at Area offices.	Area Manager
Keep cooperating agencies informed of situation.	State Fire Coordinator
Alert Areas, USFS, and GACCs of possible need for organized crews.	Operations/Safety Coordinator
Initiate discussion with other agencies on possible need for restrictions and/or closures.	Operations/Safety Coordinator
Preparedness Level 4	
Activate all SFCO positions on 24-hour basis.	SFC and Individual Coordinators
May have daily briefing and strategy meetings.	SFCO Coordinators
Keep State Forester, IBHS, and FEMA briefed on fire situation.	State Fire Coordinator
Preparedness Level 5	
Consider activating local MAC group.	State Fire Coordinator
Conduct daily MAC group strategy meeting.	SFCO Coordinators
Develop interagency contingency actions to address anticipated situations or events.	SFCO Coordinators
Update fire situation to Bureau of Fire Management.	Area Managers

IPF DRAWDOWN GUIDELINES

IPF Line Officers, Forest and Zone Fire Management Officers/Duty Officers, Unit Aviation Officer and Coeur d'Alene Interagency Dispatch Center will use the following suggested guidelines to determine appropriate staffing levels on the IPNF during periods of high fire danger and activity. Acting Line Officers need to have fire qualifications appropriate for their level. Acting FMOs need to be approved by the Line Officer. Based on local conditions and/or necessary emergency response support to adjacent units, the Forest FMO will coordinate with District/Zone FMOs, District Rangers and cooperators and may approve deviation from recommended minimum draw down levels listed below.

	Local Preparedness Level 3	Local Preparedness Level 4	Local Preparedness Level 5
Forest Supervisor ³	Forest Supervisor, Deputy or Acting available	Forest Supervisor, Deputy FS or Acting available	Forest Supervisor, Deputy FS or Acting available
Forest FMO / Interagency Federal Fire Duty Officer ³	FFMO or FFDO available	FFMO or FFDO available	FFMO or FFDO available
Unit Aviation Officer ³	UAO or acting and AFAO or Acting available	UAO or acting and AFAO or Acting available	UAO or acting and AFAO or Acting available
CDC	Center Manager or Acting and/or a minimum of one Assistant at CDC	Center Manager or Acting and/or Assistant(s) at CDC	Center Manager or Acting and Assistant(s) at CDC
Specialist support to CDC (fill as needed)	As Needed	Safety Officer (SOF2) Information Officer (PIO2/F) Prevention Team MAC Coordinator Transportation Coordinator Administrative support ¹	Fire Behavior (FBAN) Safety Officer (SOF2) Resource Unit Ldr (RESL) Prevention Team Information Officer (PIO2/F) MAC Coordinator Transportation Coordinator Administrative support ¹
District Rangers ³	DR, Deputy or Acting available	DR, Deputy, or Acting available	DR, Deputy or Acting available
District Fire Leadership ²	As Needed	FMO or Acting on Zone	FMO or Acting on Zone
AFMO Duty Officers ³	Assigned Duty Officer available	Assigned Duty Officer available	Two Duty Officers providing 24-hour coverage with night/day shifts if needed
Type 3 Teams	Type 3 Team identified for Forest	Type 3 Team identified for each Zone	Type 3 Team for each Zone alerted, assembled if necessary
Zone IA Strength – minimum ⁴	75% of FFPC ⁴ target	100% of FFPC target	100% of FFPC target, order additional resources if needed
IPNF EXU Helicopter	FFMO coordinate w/IDL DO	FFMO coordinate w/IDL DO	FFMO coordinate w/IDL DO
IPNF Helitack	FFMO coordinate w/IDL DO	FFMO coordinate w/IDL DO	FFMO coordinate w/IDL DO

Engine drawdown will be managed at the local level.

¹ Administrative support includes the following resources available for the IPNF: procurement personnel, contracting officer, Incident Business Administrator. Incident business specialist or acting on Forest when fire activity dictates.

² Fire Leadership positions will not have collateral duties as a Duty Officer or an Incident Commander.

³ Available; identified resources need to be available by phone, pager, computer and/or radio.

⁴ Fire Funded Production Capability

Conference Calls: Weekly conference calls between the NRCC and Northern Rockies Dispatch Centers will be every Wednesday at 0930 hours PDT (406-329-3631 pass code 2580) starting mid-June or as determined by NRCC.

Reference: **Northern Rockies Mobilization Guide, Chapter 20**
CDC zone Fire Manager conference calls may be conducted as deemed necessary, requested and/or based on preparedness levels; consider conference calls at local PL 3.

Resource Availability: Each district office will submit a resource status / availability list to CDC. Local government will submit resource availability either through the IDL Area Offices or directly to CDC. IPF Casual Hires (AD's) are responsible to maintain their status in ROSS. Vendors with contracted equipment will call CDC to verbally status their availability, if other an available national.

Representative Weather Stations:

NZ – Priest Lake (100204)

CZ – Nuckols (100423)

SZ – Potlatch (100603)

Priest Lake RAWS is utilized for upward reporting for the CDC Dispatch Zone.

CHAPTER 30 – ORGANIZATION

NORTH IDAHO MULTI-AGENCY COORDINATION (MAC) GROUP

In multiple wildfire situations, project or complex fires, and periods of competition for resources, a North Idaho Multi-Agency Coordination Group (MAC) will be activated to ensure efficient and effective use of critical personnel and equipment.

Reference: **Local Annual Operating Plan APPENDIX D, CDC Dispatch Area Local Multi-Agency Coordination (MAC) Operating Plan**

INCIDENT SUPPORT ORGANIZATION (ISO), CDC EXPANDED

The Coeur d'Alene Interagency Dispatch Center Manager is responsible for expanding the dispatch organization as incident activity increases. The CDC Center Manager will advise all affected units as necessary when the dispatch organization is expanded.

CHAPTER 40 – COOPERATION

COOPERATION

Successful fire management within the Coeur d'Alene Interagency Dispatch Area requires close cooperation among a number of agencies, cooperators and organizations. Dispatchers and fire personnel must be knowledgeable of the abilities and needs of cooperators. Copies of cooperative agreements and operating plans must be available to dispatchers and fire managers.

Reference **Agreements Book in Library book shelf**

INTERNATIONAL AGREEMENTS / OPERATING PLANS**NORTHWEST BORDER ARRANGEMENT FOR FIRE PROTECTION
between Province of BC, FS, NPS, BLM (OR/WA/ID)**

The Province of British Columbia and Ministry of Forests
USDA Forest Service Pacific Northwest and Northern Regions
National Park Service Pacific West and Intermountain Regions
Bureau of Land Management Oregon, Washington and Idaho State Offices

The Purpose of this Arrangement is to provide a framework under which fire management resources may be exchanged to allow for cooperative fire suppression along the United States/British Columbia border.

NORTH IDAHO ZONE INTERAGENCY AGREEMENTS / OPERATING PLANS**IDAHO COOPERATIVE FIRE PROTECTION AGREEMENT between BLM,
NPS, BIA, F&WS, FS (R1/R6)**

North Idaho Operations Area of Idaho Department of Lands, Idaho Panhandle
National Forest, Bureau of Indian Affairs, Coeur d'Alene Tribe, Bureau of Land
Management

PROJECT AND FINANCIAL PLAN #09-FI-11010400-020

INTERAGENCY AGREEMENT between BLM and ID-IPF

Provide annual shared dispatch service between ID-COD and ID-IPF and management oversight through shared Fire Management and FAO.

**INTERAGENCY FIRE MANAGEMENT ANNUAL OPERATING PLAN
between ID-COD and ID-IPF**

USDI Bureau of Land Management, Coeur d'Alene District and USDA Forest Service Idaho Panhandle National Forests

**BUREAU OF LAND MANAGEMENT, COEUR D'ALENE DISTRICT
OFFICE, Delegation of Authority**

- a. Fire Management Delegation of Authority for District Fire Management Officer
- b. Fire Management Delegation of Authority for Field Fire Office Managers
- c. Multi-agency Coordinating Group (MAC) Delegation of Authority

**INTERAGENCY AGREEMENT FOR WILDLAND FIRE MANAGEMENT
among BLM, BIA, NPS, F&WS and FS 10-IA-11130206-032**

To provide cooperation on all aspects of wildland fire management, all –hazard emergency support and the exchange of resources

**INTERAGENCY AGREEMENT between BLM, COEUR D'ALENE
DISTRICT and USFS, IDAHO PANHANDLE and NEZ PERCE-
CLEARWATER NATIONAL FORESTS**

To provide Service First: Shared Preparedness and Fuels Management resources.

**MEMORANDUM OF UNDERSTANDING between the ID-IPF and MT-LNF (MT-
PDC)**

Idaho Panhandle National Forests and Lolo National Forest, Plains Dispatch Center

To provide initial attack action on wildland fires in the most effective and efficient manner.

**MEMORANDUM OF UNDERSTANDING between East Pend Oreille Fire
Department and ID-IPF**

This MOU provides documentation for sharing radio frequencies for communications to support the protection of life and property.

NORTH IDAHO ZONE CHARTER

The North Idaho Zone (NIZ) is an interagency group with the overall responsibilities of coordinating the fire management activities of participating agencies.

NORTH IDAHO ZONE ANNUAL OPERATING PLAN

Establish operational procedures and guidelines to facilitate the fire management program of all the participating agencies.

PROJECT and FINANCIAL PLAN

Document each party's obligation for guard school expenses.

COOPERATION PACIFIC NORTHWEST**PNW COOPERATIVE FIRE PROTECTION AGREEMENT****NORTHWEST OPERATING PLAN****OREGON STATEWIDE OPERATING PLAN****WASHINGTON STATEWIDE OPERATING PLAN**

BLM, NPS, BIA, F&WS, USDA, States of Oregon and Washington

MEMORANDUM OF UNDERSTANDING between the ID-IPF and WA-COF

Idaho Panhandle National Forests and the Colville National Forest

To provide firefighting and/or prescribed fire resources

BI-REGIONAL AIR RESOURCES OPERATING PLAN between the ID-IPF, WA-OWF, WA-COF, and WA-SPD

Idaho Panhandle National Forests, Region 1

Okanogan and Wenatchee National Forest, Region 6

Colville National Forest, Region 6

Bureau of Land Management Spokane, WA

Air resources on initial attack, first follow up and project use.

COOPERATIVE FIRE PROTECTION AGREEMENT between WA-SPD and the ID-IPF

Coordinate efforts to provide cooperation in prevention, detection and suppression of wildland fires within the protection areas of the parties to this Agreement.

RESOURCE OPERATING PLAN between ID-IPF and WA-NES

USDA Forest Service Idaho Panhandle National Forests and Department of Natural Resources, Northeast Region.

To provide initial action on fire in the most efficient manner practical.

STATES

NORTHWEST WILDLAND FIRE PROTECTION AGREEMENT (Northwest Compact) COOPERATIVE OPERATING PLAN

Canadian Provinces (Alberta, British Columbia, Northwest Territories, Saskatchewan, Yukon)

States of Alaska, Idaho, Montana, Oregon, Washington

This cooperative operating plan is to facilitate assistance in prevention, preparedness, prescribed fire use, training, pre-suppression and control of wildland fires between the member agencies.

MEMORANDUM OF UNDERSTANDING between IDAHO DEPARTMENT OF LANDS and ID-IPF 10-MU-11010408-060

Idaho Panhandle NFs and Idaho Department of Lands cooperatively will assist each other with staffing and detecting fires from each other's fire lookout towers in the Priest Lake area

CHALLENGE COST SHARE AGREEMENT between IDL and ID-IPF

IPNF funding to utilize IDL employees for flight following aviation activity related to woodland caribou.

ANNUAL OPERATING PLAN and FINANCIAL PLAN between IDOC and IDL

Idaho Department of Corrections and Idaho Department of Lands

Allows IDOC to provide offender labor to assist IDL in meeting its fire suppression, prescribed fire, and resource project work objectives.

MEMORANDUM OF UNDERSTANDING between IDL and ITD

Idaho Department of Lands and Idaho Transportation Department

Ensure the safety and efficient passage of motorists, fire fighters and equipment along state highways where fire management activities necessitate the establishment of temporary traffic control zones.

COLLECTION AGREEMENT between ID-IPF and IDL

The purpose of this collection agreement is to accomplish Federal and State National Fire Plan objectives through the utilization of an FS employee in cooperation with IDL.

MEMORANDUM OF UNDERSTANDING between City of Coeur d'Alene and Idaho Department of Lands (Mica)

City of Coeur d'Alene and the State of Idaho, Idaho Department of Lands.

To provide protection measures and initial fire suppression response actions on all encroachments extending from the shorelines of Lake Coeur d'Alene and the Spokane River within its jurisdiction. IDL will assist in Wildland protection as requested.

**Kootenai County Chiefs Association Standard Operating Procedures
#2003-1, Burn Bans**

Authority under International Fire Code 307.2.2. To provide for two burn zones, divided by elevation, which will allow for earlier burning at higher, moist areas.

OTHER

**COOPERATIVE FIRE PROTECTION AGREEMENT between WEST PEND
OREILLE FIRE DISTRICT and ID-IPF**

Provide cooperation in prevention, detection and suppression of wildland fires.

**Memorandum of Understanding West Priest Lake Volunteer Fire
Department and ID-IPF Priest Lake Ranger District**

09-MU-11010408-036, cooperation between the parties concerning fire suppression response within the area of mutual responsibility.

**COOPERATIVE FIRE PROTECTION AGREEMENT between WEST PRIEST
LAKE VOLUNTEER FIRE DISTRICT and ID-IPF**

Provide prevention, detection and suppression of wildland fires.

**COOPERATIVE LAW ENFORCEMENT AGREEMENT No. 06-LE-11010400-
028, EXHIBIT A FINANCIAL and OPERATING PLAN**

Emergency and Disaster Assistance with County Sheriff's Departments. R1 Law Enforcement & Investigations and individual county sheriff's offices.

Benewah County, does not exist at this time

Boundary County

Bonner County, does not exist at this time

Kootenai County

Shoshone County

USDA FOREST SERVICE

**INTRA-AGENCY AGREEMENT between US FOREST SERVICE units
NORTHERN REGION (R1) and SOUTHWESTERN REGION (R3)**

To maintain or increase each region's individual wildland fire management capability in a flat or declining budget situation. Resource sharing outside of large fire support.

Agreement is formulated to facilitate the exchange of fire suppression resources rather than transferring money between Region 1 and Region 3 of the Forest Service.

CHAPTER 60 – OVERHEAD/CREWS

INCIDENT QUALIFICATIONS and CERTIFICATION (IQCS) POSITION CODES

A list of agency personnel and their fire job qualifications is available at CDC.

CREWS AND WILDLAND FIRE MODULES**TYPE 1 INTERAGENCY HOTSHOT CREWS**

Reference: **Northern Rockies Mobilization Guide, Chapter 60**

The Idaho Panhandle has one Interagency Hotshot Crew stationed at the IPF Supervisors Office, Coeur d'Alene, Idaho. All orders for the Type 1 IHC will be placed through CDC.

Days off Sunday – Monday

The Interagency Hotshot Crew Operations Guide (page 3) states:

“Variances from the crew size standards for the purpose of crew effectiveness, pilot studies or training opportunities are acceptable. Such variances must have approval from the responsible Geographic Area Coordinating Group and the Sponsor Agency Fire Director.”

TYPE 2 and TYPE 2 IA CREWS

Reference: **Northern Rockies Mobilization Guide, Chapter 60**

Type 2 crews (regular and/or initial attack) may be composed of employees from one or more areas / districts and one or more agencies to form an 18-20 person crew.

CREW IDENTIFICATION:

ID-IPF identifies an FS crew boss

ID-IDS identifies an State crew boss

Crew Rotation

CDC will start the process to mobilize an interagency crew with the zone that has not sent a crew out most recently.

Reference: **Chapter 20**

CONTRACT CREWS

CDC currently hosts two ASI Arden Solution, Inc. Type 2 IA crews.

Reference: **Chapter 20**

INMATE CREWS

- The Idaho Correctional Institution Orofino (ICIO) crews (i.e. Red Hots) are ordered through Grangeville Interagency Dispatch (GVC) to CPTPA.
- The Southern Idaho Correctional Institution (SICI) crews, located in the Eastern Great Basin Geographic Area, are ordered through Boise Dispatch Center for IDL fires.

Reference: **CDC Mobilization Guide, Chapter 20**

INCIDENT MANAGEMENT TEAMS

References: **Northern Rockies Mobilization Guide, Chapter 60**
Northern Rockies IMT Plan
NIZ IMT3 Operations Plan

TYPE 2 TEAMS, NORTH IDAHO ZONE

The North Idaho Zone (NIZ) hosts two Type 2 interagency Incident Management Teams (IMT). All requests for IMT's will go through CDC to NRCC. The NIZ Type 2 IMT Coordinator is the GVC Center Manager.

TYPE 3 TEAMS, NORTH IDAHO ZONE

The FS, IDL, CDT, BLM and local jurisdictions have pooled personnel to create Type 3 IMT's to manage extended attack fires on local jurisdictions. The intent is to have an organization of overhead identified that can be quickly mobilized to manage wildland and urban interface complex fires or fires that have large fire potential. All requests for Type 3 Teams will go through CDC.

Reference: **NIZ IMT3 Operations Plan**

INCIDENT SUPPORT TEAMS

BUYING TEAMS

As incident activity dictates, local Buying Teams may be organized as agency Buying Teams, FS, IDL or as interagency teams. The teams may be located either at the IPF Supervisor's Office, IDL Bureau Office, CDC or CDK.

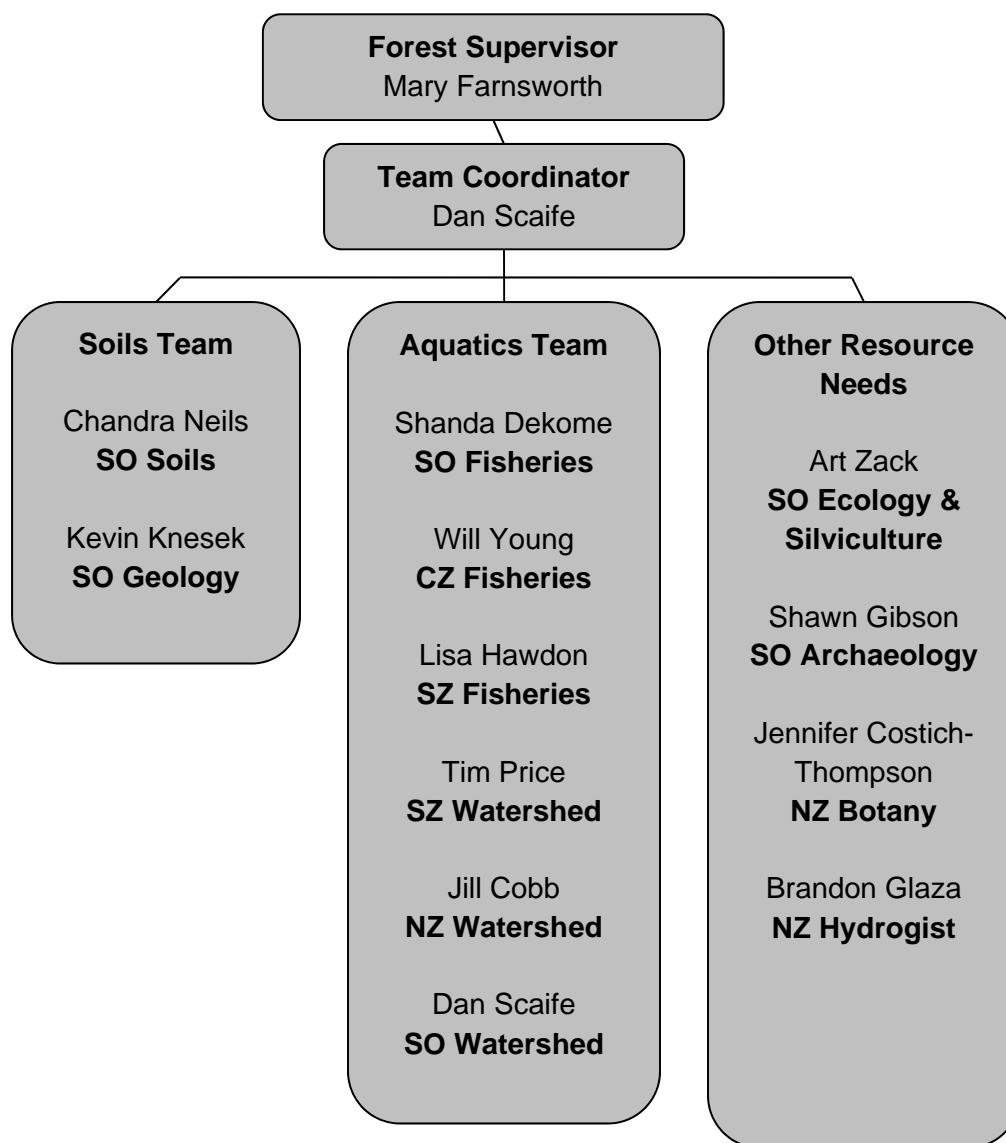

BURNED AREA EMERGENCY RESPONSE (BAER) TEAMS

IPF and COD: in some wildfire situations, a rehabilitation specialist or team may be needed. The District Ranger or Field Manager is responsible for fire rehabilitation.

When expertise or assistance is required, the IPF has a Burned Area Emergency Response team, the BAER Team Coordinator, Dan Scaife, Forest Aquatics Program Manager, will be notified.

An interdisciplinary BAER assessment is necessary on all wildfires that exceed 500 acres (FSM 2523.03).

The incident Agency Administrator will determine the need to order a BAER Team. The BAER Team Coordinator will identify the Team members, and CDC will process a resource order for the Team members.

1 **POTENTIAL FS 2014 BURN AREA EMERGENCY RESPONSE TEAM ROSTER**

2
3
4 NOTE: Once assigned to the Burned Area Emergency Response Team, resources will not be
5 released until the Forest Supervisor or their representative either determines that emergency
6 rehabilitation is not needed or a burned-area report is accepted.

SPECIALIZED PERSONNEL

HELITORCH MODULES

The IPF may be able to supply a helitorch module.

Reference **Interagency Aerial Ignition Guide (NFES 1080)**

Reference the **CDC Mobilization Guide, Chapter 70**

CRITICAL INCIDENT STRESS DEBRIEFING (CISD) TEAMS

Reference the **CDC Mobilization Guide, Chapter 20 and 90**

Reference the **Northern Rockies Mobilization Guide, Chapter 60**

To order a CISD Team for **fire** related incidents, the Incident Commander or Agency Representative may contact the CDC Center Manager. The Center Manager will order and be placed with NRCC to the Peer Group Coordinator to process.

With concurrence from the Peer Group Coordinator, the CDC Center Manager may utilize a local critical incident stress debriefing team.

1-800-632-8000

Kootenai County Fire & Rescue, Duane Hanna, 208-659-7544

Spirit Lake Fire Department, Carla Morales, 208-704-2269

NRCC should also be notified if a local team is activated. It is important that everyone being debriefed (affected personnel) is thoroughly aware of the purpose of a stress team.

The basic information needed for any Team:

- The type of incident
- The number of people involved
- Arrangements for a debriefing location (a large enough space where there will be no interruptions).

AGENCY SAWYERS/FALLER MODULES and R1

CHAINSAW/CROSSCUT SAW PROGRAM COORDINATORS

The IPF Chainsaw Coordinator or alternate should be notified whenever saw modules/teams from outside the agency are ordered for IPF fires.

Forest Chainsaw Coordinator: Sam Gibbons, Coeur d'Alene River RD	Office 208-769-3035	After Hours 208-682-3069
--	---------------------	-----------------------------

INITIAL ATTACK MODULES

Reference the **Northern Rockies Mobilization Guide, Chapter 60**

CDC has established "MODULE – IA – agency identifier" suppression module resources in ROSS for mobilization within the CDC dispatch zone or for out-of-area assignments.

SHELTER DEPLOYMENT / FATALITY INVESTIGATION TEAMS

For fire shelter deployment incidents, refer to **Chapter 18 Reviews & Investigations in the Interagency Standards for Fire and Fire Aviation Operations (NFES 2724)**, in addition:

- IDL: Serious Accident Response Guide/Critical Incident Response Guide
- FS: Northern Region Emergency and Disaster Plan, chapter Wildfire
- BLM: Interagency Serious Accident Response Guide, December 2013

At the Incident scene:

- Follow the actions listed in the Northern Rockies Emergency and Disaster Plan.
- Contact the Center Manager and Agency Fire Management Officer / Fire Warden.
- Contact the IDL Fire Bureau Chief, Federal Duty Officer, or Coeur d'Alene Tribe Forest Manager, and ensure fire manager has notified appropriate line officer .

After all emergency procedures have been followed, fill out form NFES 0869 (Wildland Fire Entrapment/Fatality Initial Report) located in Chapter 20 of the National Interagency Mobilization Guide.

Federal Fire Managers are responsible for contacting the Federal Duty Officer:

CDC Center Manager: Celeste Hancock	Office 208-772-3283	After Hours Cell 208-659-1346
---	---------------------	----------------------------------

Federal Duty Officer is responsible for notifying the Regional Incident Dispatcher:

NRCC Coordinator: Kathy Pipkin	Office 406-329-4709	After Hours Cell 406-544-2433
--	---------------------	----------------------------------

CRIMINAL INVESTIGATION**FS CRIMINAL INVESTIGATION**

Consult local law enforcement personnel, who will determine the need for state, local or other types of investigation.

The IPF Patrol Captain should be consulted about any situation for which an investigation is needed.

CHAPTER 70 – EQUIPMENT/SUPPLIES

NATIONAL INTERAGENCY RADIO SUPPORT CACHE (NIRSC)

LOCALLY AVAILABLE COMMUNICATION EQUIPMENT

CDK has Type 3 IMT radio kits and repeaters for local Type 3 and 4:

- NFES 9425, handheld

PREPOSITIONED RADIO SYSTEMS

An NFES 4390 Starter System kit is pre-positioned at CDK. To order this kit, place a ROSS equipment order to NRCC on incident order number MT-NRC-000001.

ENGINE AND WATER TENDERS

The following is a list of agency engines in the CDC Dispatch Zone.

CACHE SUPPORT

The Districts / Areas maintain local caches for initial attack.

The CDK has a 1200-person cache in Coeur d'Alene, which is available for CDC Zone's use and will be the initial source of supply.

Reference: **NIZ Incident Business Plan**
IDL Operating Guidelines
CDK User's Guide

SPECIALIZED EQUIPMENT

Idaho Department of Lands may utilize Northern Rockies competed resources or locally established EERAs.

FIRELINE EXPLOSIVES (FLE)

Contact Steve Petesch, IPF Lead Blaster or Pat Hart, Regional Blaster Examiner, as an alternate, Bonners Ferry RD (208-267-5561).

Reference: **CDC Mobilization Guide, Chapter 60**

HELITORCH/AERIAL IGNITION EQUIPMENT

The following aerial ignition equipment is available:

IPF-St. Joe RD, Avery 1 Helitorch Unit (2 torches, 1 trailer)
 (available only w/module)
 1 Primo Mark III Sphere Dispenser
 (available only w/operator)

IPF-Coeur d'Alene River RD 1 Helitorch Unit (1 torch, 1 trailer)
 1 Primo Mark III Sphere Dispenser

IPF-Sandpoint RD 1 Helitorch Unit (1 torch, 1 trailer)
 1 Primo Mark III Sphere Dispenser

INFRARED SCANNERS

Palm IR infrared scanners are available. These units should be ordered **with** operators, but may be ordered without an operator with FMO/Warden approval.

Handheld Infrared Scanners

LOCATION	PALM IR
COEUR D'ALENE RIVER DISTRICT (Fernan/SVO)	2

PORTABLE/MOBILE RETARDANT MIXING BASES

Within the CDC Zone, the following airports have been identified to be used, if needed, as portable retardant bases: Boundary County in Bonners Ferry (65S), Sandpoint (SZT), Shoshone County in Kellogg (S83), and St. Maries Municipal (S72).

Reference **Northern Rockies Mobilization Guide, Chapter 70**

MISCELLANEOUS EQUIPMENT

CHAINSaws

Chainsaws are no longer classified as hazardous materials. However, individual airlines may establish company policies that are more restrictive than governmental regulations and individual flight crews or gate agents may still refuse to take any item.

The Federal Fire and Aviation Safety Team (FAST) is recommending to NWCG the following policy:

- 1) Continue to purge and clean saws and any items that have contained fuel.
- 2) Saw chaps or bags that have become soaked with fuel or lubricants will be left at the incident and replaced by the supply unit. If replacement is not possible, crews will proceed without the items and seek replacement at next possible location (i.e. do not transport dirty materials). New chaps must be acquired prior to using the saw.

Crews need to declare that they are shipping saws, make them available for inspection, and hopefully not have episodes where they are rejected. If problems arise when transporting saws, contact the airline's hazardous materials coordinator and attempt to ship the saws as baggage.

TERRA TORCH

The following ground firing equipment is available:

IDL-Priest Lake FPD 40 Gal Terra Torch (IDL only)
IPF-St. Joe RD - Avery 140 Gal Terra Torch

HELIWELLS/PUMPKINS

Two 10,000 gallon Dip Tanks, one 15,000 gallon Heliwell and multiple pumpkins, 6,000 gallons or less, are available to order through CDK.

REMOTE AUTOMATED WEATHER STATIONS (RAWS)

The CDC Dispatch Zone uses the following Weather Stations:

BONNERS	SADDLE PASS	PRIEST LAKE

TACTICAL AIRCRAFT

All incident-related flights will be coordinated through CDC.
Aircraft available through CDC are listed in appendices to the Northern Rockies Mobilization Guide.

FEDERAL AIRTANKERS

The following operational guidelines will be used for ordering air tankers:

- Incident Commanders or Duty Officers will order large air tankers directly from CDC.
- Extended or overnight dispatch will be coordinated between CDC and NRCC.
- USFS R1 AFM will bill the Idaho Department of Lands for flight time and retardant used on fires within IDL protection.
- Request for costs associated with aircraft will be directed to the IPF UAO or Acting.

SINGLE ENGINE AIR TANKERS (SEAT/AWS)

There are normally two Idaho Department of Lands SEATs based at the Coeur d'Alene Air Tanker Base one of which is an Amphibious Water Scooper (AWS). Orders for these aircraft will go through CDC.

There are normally also two Idaho Department of Lands SEATs based at the Grangeville Air Center and one at the McCall Air Tanker Base. Orders for these aircraft will go through CDC; CDC will then place the request with Grangeville Dispatch (GVC) or Payette Dispatch (PAC) for IDL fires.

IDL may pre-position these SEATs anywhere in the state.

Contact the IDL Statewide Duty Officer for approval for IDL SEAT requests outside the CDC Dispatch Zone when in 'high' or greater fire danger.

HELICOPTERS - EXCLUSIVE USE

The IDL has a Type 2 helicopter on exclusive-use contract based at Coeur d'Alene during the summer, from approximately July 1 through mid-September. This helicopter will come with an HMGB and an IA module. Orders for these resources will be placed with CDC.

The IDL also has an IDL exclusive use Type 3 helicopter on exclusive-use contract from July 1 through mid-September based in Craigmont. Orders for this resource will go through CDC; CDC will then place the request with Grangeville Dispatch (GVC).

IDL may pre-position these helicopters anywhere in the state.

The IPF has a Type 3 helicopter with a helitack crew stationed at Sandpoint from early August into September. Orders for these resources will be placed with CDC.

EMERGENCY MEDICAL SERVICE (EMS) HELICOPTERS

Agency Personnel

Agency personnel requests for Emergency Medical Services (EMS) helicopters should be made through CDC, who will coordinate with the local sheriff's office. Rescues requiring special techniques such as winch capability will be coordinated through CDC.

Private Citizens

All requests for resources will be processed through the appropriate County Sheriff's Office. The county is responsible for all private search and rescue and all associated costs.

Reference the **Northern Rockies Mobilization Guide, Chapter 80** and **Appendix D**, for a list of available air resources.

AIRCRAFT ACCIDENT AND INCIDENT INVESTIGATION

References: **Northern Rockies Mobilization Guide, Chapter 80**
IPF Aviation Management Plan
North Idaho Interagency Aviation Mishap Response Guide and Checklist

AIRSPACE AND FREQUENCIES

TEMPORARY FLIGHT RESTRICTIONS 91.137

All temporary flight restrictions (TFR) will be ordered through CDC and coordinated through the UAO or Assistant Center Manager-Operations. NRCC will process TFRs.

COMMUNICATIONS / FREQUENCIES

Reference the **CDC Dispatch Area Frequency Guide**

Initial attack communication zones are used for initial attack air-to-air frequencies and are now based on dispatch zone boundaries. The frequency for the CDC zone is shown below. This is an AM air-to-air frequency utilized by tactical aviators to maintain discrete communications and avoid conflict over or near an incident.

Zone ID-06	118.225
------------	---------

SECONDARY FREQUENCIES MAY BE REQUESTED FROM NRCC.

If an initial attack fire becomes an extended attack effort, and if an IMT is assigned, the IMT will release the initial attack frequency during the team's initial transition and request a replacement frequency.

Aviators should report any unauthorized use of these frequencies to the local dispatch center, who will notify the NRCC.

TRANSPONDER CODES

A transponder code of 1255 has been established for firefighting aircraft. All aircraft on an incident are encouraged to use this code especially in high air traffic density areas.

FIRE TRAFFIC AREA (FTA) – The 3 C's

The CDC Aircraft Dispatcher will coordinate air traffic on unstaffed fires until a ground contact or aerial supervision is on scene.

Reference the **Northern Rockies Mobilization Guide, Chapter 80**

SUNRISE / SUNSET TABLES

MISCELLANEOUS INFORMATION

EXPLOSIVE TRANSPORT

Authorization should be obtained through the responsible agency Aviation Officer prior to explosives-laden aircraft landing at a designated airport. FS policy and 49 CFR should also be consulted for specific handling requirements.

FUELING

Fueling of aircraft is the prerogative of the individual contractor. Dispatchers may assist by calling a specific fuel vendor on the contractor's request. Following are phone numbers for known fuel vendors.

Heliprop/Southfield Fuel	
Office	208-772-6404

WILDLAND FIRE RELATED EMERGENCY GUIDANCE

MEDICAL RESPONSE

Medical Incident Size Up. Reference page 112.

Emergency Extraction Checklist. Reference page 113.

Emergency Information Documentation Sheet. Reference page 114.

In the event a serious injury occurs to agency personnel or cooperators, the Crew Leader, Incident Commander or a designated individual will take the lead in implementing the response plan. The following procedure will be used:

1. Administer appropriate first aid.
2. Immediately advise Crew Leader/IC of situation.
3. Request assistance through appropriate channels.

WITHIN THE CDC DISPATCH ZONE

4. Contact CDC via radio or phone. It is the responsibility of the Crew Leader/IC to ensure that there is adequate communication via radio or cell phone to notify CDC or Area/ District Office immediately in case of emergency.
5. CDC will assist with any emergency travel needs or notification to the receiving medical facility.
6. CDC will notify the appropriate unit Duty Officer and employing agency staff Duty Officer.

OUT-OF-AREA, OFF THE CDC DISPATCH ZONE

4. Contact the incident dispatch center via radio or phone.
It is the responsibility of the Crew Leader/IC to ensure that there is adequate communication via radio or cell phone to notify the incident dispatch center immediately in case of emergency.
5. The incident dispatch center will notify CDC, providing incident details.
6. CDC will then notify the employee's appropriate unit Duty Officer and employing agency staff Duty Officer.
7. If needed, CDC will assist with any emergency demobilization needs.

ALL ACCIDENTS / INCIDENTS SHALL BE ROUTED THROUGH DISPATCH

Incident Management Teams will have an Incident Medical Plan

NORTHERN ROCKIES CRITICAL INCIDENT STRESS DEBRIEFING TEAM

- Northern Rockies Mobilization Guide Ch 60 CDC Mobilization Guide Ch 10, Ch 60
- NRs HRSP Coordinator, Mary Jo Lommen
 - 406-329-4930 (work)
 - 406-544-4058 (cell)

CRITICAL INCIDENT

Incident personnel may experience stress reactions due to a particularly traumatic event, or because of the cumulative effect of stressful events. Incidents that cause stress are called Critical Incidents. Critical Incidents may cause unusually strong emotional reactions and could interfere with ability to work safely or function normally. Examples may be:

- Personal traumatic injury/near miss
- Family member severe illness or death
- Aviation accident
- Shelter deployment
- Motor vehicle accident
- Disaster recovery work
- Co-worker critical injury or death
- Incidents perceived as threatening (both physically and psychologically)

WHAT ARE COMMON REACTIONS?

Physical	Mental	Emotional
<ul style="list-style-type: none">• Fatigue• Insomnia or sleeping more• Nightmares• Chills• Nausea• Appetite changes• Restlessness	<ul style="list-style-type: none">• Confusion• Trouble concentrating or making decisions• Forgetfulness• Continually thinking of the event• Feeling like the event is happening again	<ul style="list-style-type: none">• New fears, depression• Feelings of guilt• Irritability, anger, being easily frustrated• Feeling emotionally numb• Feeling helpless or anxious

RESULTS OF TRAUMATIC STRESS

Critical Incident Stress Debriefing (CISC) is specifically designed to reduce the negative impact of the critical incident and to accelerate recovery to normal from an abnormal event. CISC helps prevent long term psychological problems and Post Traumatic Stress Disorder (PTSD). Critical Incident Stress can significantly impact emotional and physical well-being. If left untreated, 12-25% who experience critical incidents will develop PTSD. It is a disabling condition that does not go away, leading to extreme anxiety, sleeplessness, drug and alcohol abuse, inability to focus at work, and conflicted relationships.

CRITICAL INCIDENT STRESS DEBRIEFING (CISD) TEAM

A debriefing includes all personnel involved in the incident, plus 1-4 CISD Team members who serve as group leaders. No one is pressured to speak, but everyone is asked to attend to support the entire group. After the debriefing, CISD Team members are available to visit privately with group members as needed. A debriefing usually takes 1-3 hours. It is about personal and emotional responses not the facts of the incident. The meeting is not a legal inquiry, an investigation or blaming in any way. No notes are taken and recording devices are not allowed. Discussion is private; however, participants are reminded not to say anything they would not want brought forward in a possible investigation. Supervisors who were not directly involved in the incident do not attend; however, those who were involved understand that there is no Supervisory level or rank recognized. As needed, team members offer referral information to anyone needing follow-up counseling.

NORTHERN ROCKIES CISD TEAM

The Northern Rockies Critical Incident Stress Debriefing Team is lead by Peers who are current or former agency employees with strong fire backgrounds. Mental health professionals who have had experience working with fire personnel are also part of the team and are available to oversee and advise. Team members have had special training in traumatic stress. Due to the unique culture of Fire and Incident Management, Peer support team members help to establish trust and increase the effectiveness of CISD.

MISSION IS THREE-FOLD

1. To assist Fire and Incident Personnel who are experiencing the effects of critical incident stress.
2. To assist Fire and Incident Personnel to better manage stress through CISD services.
3. To prepare Fire and Incident Personnel by providing training and education about traumatic stress and how to deal with it.

BENEFITS OF CISD

CISD services are crisis intervention techniques; they are not mental health therapy. CISD helps to prevent mental and emotional repercussions. Participants reduce their stress levels and experience less stress symptoms. Factual information about CISD, given by the CISD Team members helps fill in knowledge gaps and provides more perspective on the incident.

CISD Teams may be ordered through normal dispatch channels for fire incidents involving any of the Northern Rockies Wildland fire agencies.
